

The unique bear-home (Patak u. 39.) in Central Europe opened 24.November 1998 in Veresegyház. The whole place is on 5,5 ha. 39 bears and 20 wolves can use 3,5 ha for free playing and running. 1,5 ha pine-grove helps to reconstruct the original life style of the bears - to hide, to climb etc. The bear-home is open every day of the year.
